

ANGAJ ANANT BRAHMANKAR

Software Engineer – Angular/Python

Email : angajbrahmankar@gmail.com

Contact : +91- 8180086335

*I am an associate with Nihilent Ltd since March 2019 Where I have worked as Software engineer for executing multiple projects within strict time schedule, targeting assignments in **Web Application Development** with an organization of repute preferably in IT sector.*

PROFESSIONAL SUMMARY

[Overall 2 Years of Experience]

- ❑ Experience in Angular-Python based web and enterprise applications development, automation platform.
- ❑ Good experience in open source framework Angular and Flask.
- ❑ Worked on Event driven automation platform StackStorm and automation packs design using python.
- ❑ Worked on Docker Container.
- ❑ Experience in using Angular, Python and Flask for execution of various projects; completed various development, enhancements, maintenance & support related projects in the entire tenure.
- ❑ Ability to quickly adapt to new environments and learn new technologies.

ACADEMIC DETAILS

Bachelor of Engineering In Computer Technology

07-2014 - 06-2017

Nagpur University

Diploma (Polytechnic) in Computer Technology

07-2011 - 06-2014

Nagpur University

CERTIFICATES

Diploma in Embedded Systems

01-2012 - 06-2012

Vector India, Hyderabad

TECHNICAL EXPERIENCE

Programming Skills

- ❑ Experience with core Python (3.x) and its standard libraries.
- ❑ Experience in Angular 6+ Framework
- ❑ Experience object oriented programming (OOP) concepts using JavaScript, Python.
- ❑ Built Web applications using Angular, Python, PHP, Flask, JavaScript, HTML, CSS.
- ❑ Automation Platform: StackStorm Packs.
- ❑ DevOps Tools: Docker, Jenkins.

DataBase

- ❑ MySQL, MongoDB

Version Control

- ❑ GIT/GIT-Lab for version control

PROJECTS

1. NIMS

- **Organization :** Nihilent Ltd.
- **Client :** NIMS
- **Duration :** Jul-2020 to Till Date
- **Description:** NIMS is a n employee management portal of an Organization The objective of this is to Migration of the employee management system from old stack to new stack. Where the technology is getting migrated from java 8 to java 11.
- **Responsibilities:**
 - ❖ Module development.
 - ❖ Design, develop, and unit test applications in accordance with established standards
- **Technologies:** Angular 8, java11, Mysql,

2. NTT Innersourcing

- **Organization :** Nihilent Ltd.
- **Client :** NTT Data
- **Duration :** December 2019 to May 2020
- **Description :** User Interface that enables search, presentation and generation of project meta-data files. Search is supported by using Azure Cognitive Search and COSMOS DB as database which will get information pulled out of GitLab, Github and Azure Devops. It is designed to support our Inner Sourcing initiative by enabling self-service discovery of configuration, automation, micro-services and solutions
- **Responsibilities :**
 - ❖ Cosmetic UI changes , Rest API Integration and consumption
 - ❖ Create Logic App workflow as per requirements.
 - ❖ Design, develop, and unit test applications in accordance with established standards
- **Technologies :** Angular 8, .NET, Microsoft Azure, Azure DevOps, Function Apps, Logic Apps and COSMOS DB.

3. Consumer support Chat System

- **Organization :** Nihilent Ltd.
- **Client :** Delphi Bank
- **Duration :** September 2019 to November 2020

→ **Description:** The objective of this initiative is to develop an attractive and simple UI for consumer side for consumer support portal designed and developed in Angular 7 and integrated with Microsoft graph services API and Flask. So that customer can chat with support team for any queries related to banking services.

→ **Responsibilities :**

- ❖ Cosmetic UI changes , Flask Rest API creation and consumption
- ❖ Unit Testing

→ **Technologies:** Angular 6/7, Python, Flask, Microsoft Graph Services, Microsoft Azure

4. NSS Automation

→ **Duration : May 2019 to Sept 2019**

→ **Description :** The objective of this initiative is to identify the system configuration requirement data pattern in daily NSS Infrastructure-support activities, which can be replaced by automation to make it more efficient and effective. This will help to save the number of hours consumed daily to complete these tasks and can be aligned on critical tasks.

→ **Responsibilities :**

- ❖ Cosmetic UI changes , Flask Rest API creation and consumption
- ❖ Unit Testing

→ **Technologies :** Python, REST API, Flask, Angular 8, MySQL, StackStorm, Docker.

PERSONAL DETAILS

- ❖ Date of Birth : 5th/January/1996
- ❖ Nationality : Indian
- ❖ Address : A/P: Plot No 212, Opposite Patanjali Mega store, Sakardara Square, Om Nagar Nagpur - 440009
