WORK EXPERIENCE

Angular Developer at Ideal IT Techno (Dec 2021 - Present)

- Developed and maintained Angular applications, implementing best practices and ensuring code quality and maintainability
- Utilized HTML, CSS, and TypeScript to create responsive and visually appealing user interfaces within Angular applications.
- Collaborated closely with back-end developers to integrate RESTful APIs and implement new features, contributing to a seamless user experience.
- Implemented unit tests using Jasmine and Karma, ensuring code reliability and minimizing post-launch bugs.
- Utilized Jira for project management, including creating and managing tickets for feature requests from clients.
- Collaborated with stakeholders to break down feature requests into actionable tasks and user stories, ensuring clear understanding and alignment of project goals.

PROJECTS

TaskEasy at Ideal IT Techno (Feb 2022 - Present)

- Utilized Google Maps integration to implement a tracing tool using google map's drawing tools
- Implemented Stripe payment element and customized it using Element Appearance API.
- Developed an angular library for data filtering.
- Designed and developed a custom organization chart feature.
- Implemented endpoints for data retrieval and submission, leveraging HTTP GET and POST methods.

Thegm10 at Ideal IT Techno (Oct 2022 - Nov 2022)

- Integrated a user-friendly trading card form for adding photos and details.
- Implemented lazy loading for API data fetching, reducing page load times and improving overall site performance

EDUCATION

Bachelor of Engineering - Computer Science (2015 - 2019)

University Institute of Technology, RGPV
