ANIKET JHA

aniketjha917928@gmail.com linkedin.com/in/aniket-jha github/aniketjha9179

Technical Skills

Languages: Javascript, C
Developer Tools: VS Code, Docker , Android Studio , Figma
Technologies/Framework: ReactJS, React Native, Expo,Tailwind css, Express, NodeJs,Postman,MongoDB Redux/Redux Toolkit
Version Control Tools: Git, GitHub

Experience

MagnetBrains LLC DBA Pabbly **Dec 2023-Jan 2024**
Graphics Design Intern *Bhopal, IN*

- Comprehensive training in UI/UX design, Figma, Canva, WordPress, and Elementor.
- Created visually appealing UI/UX designs following design principles and best practices.
- Developed custom responsive websites with WordPress and Elementor.
- Enhanced images and created visual content with Adobe Photoshop.

Projects

Exercise-application using Expo

- Crafted an immersive fitness experience using React Native Expo, seamlessly blending animated exercises and detailed equipment insights.
- Designed intuitive interfaces with NativeWind, ensuring users effortlessly navigate through workouts and access informative content.
- Empowered users with detailed muscle impact analysis for tailored workouts, leveraging React Native Expo, NativeWind UI, and Rapid API integration for comprehensive exercise data.

Food ordering Application

- Developed a food ordering app using React Native, focusing on a seamless user experience and efficient performance
- Implemented Redux for state management, ensuring the food order list is managed efficiently and the app state is predictable.
- Implemented authentication using Expo, providing secure and reliable user login and registration functionalities.
- Added functionality to request users to turn on their location services, ensuring accurate location data for better service delivery and user convenience.

Ecommerce Application Android

- Developed a comprehensive Amazon-like application using Node.js and MongoDB, including custom APIs for secure user authentication, login, registration, and email verification.
- Implemented Redux for efficient state management, handling user sessions, cart functionality, and order processing, while ensuring robust performance and scalability.
- Built and integrated a custom API for efficient data transactions and application interactions, ensuring high performance and security.
- Developed a dynamic React Native interface with features including cart management, real-time updates, and a secure logout functionality.

News App for Android

- Crafted a high-performance news application with a 99% uptime ratio, showcasing optimal efficiency and reliability in delivering real-time news updates to users worldwide.
- Successfully implemented advanced search functionality, enhancing user engagement and accessibility in the application, while demonstrating proficiency in React Native development.

Education

Sagar Institute of Research and Technology Bhopal (SIRT) **July 2020 - June 2024**
Bachelor of Technology in Electronics and Communication *Bhopal, IN*
CGPA: 7.32/10

Certificates

- React-Native Certificate By LearnCodeOnline
- Training Certificate of Web Development

Management Skills

- Communication
- Adaptability
- Time Management
- Team Collaboration
