PERSONAL PROJECTS

Dev Musical

- Created a dynamic web platform for music enthusiasts with e-commerce for instruments. Designed a responsive UI using HTML, CSS, Bootstrap, and JavaScript. Integrated seamless shopping, cart, and secure payments. Developed backend with PHP for dynamic content and database interactions.

Lead Management System (LMS)

- Automated Lead Generation: Created a platform to streamline lead generation, qualification, and conversion tracking. Integrated CRM for personalized interactions and effective lead nurturing.

Subscriber Management System

- Centralized Customer Database: Organizes detailed customer info and service plans. Tracks service status and pricing. Automates billing and payment management, including late payment flags.

Khata-bahi Management System

- Income and Expense Tracking: Monitors income, expenses, and financial records. Manages transactions and generates reports. Administers user roles and ensures data security with encryption and backups.

Samvedna

- Samvedna is a non-profit focused on empowering marginalized communities and promoting sustainable development. It provides essential services in education, healthcare, and social justice, offering quality education and vocational training to underprivileged individuals. The organization also supports environmentally friendly practices and community-led sustainability initiatives.
