SUMMARY

As a Flutter Developer with nearly 1 year of experience, I specialize in building intuitive, high-performance mobile applications. Proficient in creating responsive UIs, integrating APIs, and optimizing code, I aim to deliver seamless user experiences. I am eager to contribute to dynamic teams while enhancing my expertise in mobile app development.

WORK EXPERIENCE

Flutter Developer(Intern to Full-Time)

Apr 2024 - Oct 2024

Monkoodog — Internship (3 months) | Full-Time

Gurugram

- Joined as an intern and converted to a full-time position after 3 months due to exceptional performance.
- Developed and maintained User App, Business App, and Admin Panel using Flutter, focusing on creating intuitive and responsive UIs.
- Integrated APIs for front-end and back-end communication, implemented Firebase for real-time database and user authentication, and added push notifications and location fetching.
- Optimized and restructured the codebase for performance and maintainability, adhering to state management best practices.
- Resolved critical bugs, stabilized applications, and enhanced user experience through improved app functionality.

Flutter Developer Intern

Dec 2023 - Mar 2024

Printila — Internship (3 months)

Remote

- Worked on three apps (Business, Customer, and Admin) within the e-commerce platform, contributing to their development and stability.
 - Primarily focused on frontend tasks such as UI design, API integration, and bug fixing to improve app stability and usability.
-

TECHNICAL SKILLS

- Languages:** Dart
 - Frameworks & Tools:** Flutter, BLoC, Rest API Integration
 - Backend & Databases:** Firebase, Cloud Firestore
 - Version Control:** Git, GitHub
 - Tools:** Android Studio, VS Code, Postman
-

PROJECTS

MOVIE MAGIC APP

- Developed a feature-rich mobile application using Flutter, integrating The Movie Database (TMDB) API to implement onboarding, home, search, and detailed movie description screens with responsive UI.
- Enhanced user experience by implementing real-time data fetching, search functionality, categorized movie listings, and dynamic updates on movie information.

FOOD RECIPE APP

- Integrate the data with APIS like Calories, name of food, and Its image etc and design UI with Flutter framework, Dart Programming Language, and also a search functionality.

WEATHER APP

- Integrated APIs to provide real-time weather updates on temperature, humidity, and air speed, enabling users to access comprehensive data effortlessly.
- Designed a responsive UI with Flutter and Dart, incorporating a city-based search functionality and engaging Lottie animations for an enhanced user experience.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2020 - 2024

College : ITM Gwalior

CGPA : 8.99

12Th PCM(CBSE)

2019 - 2020

School : IIPS Dabra

Percentage : 80.8%

1oTh(CBSE)

2017 - 2018

School : IIPS Dabra

Percentage : 65.8%

CERTIFICATES

- Microsoft certified in Azure data fundamentals
 - AICTE certified in Celonis
 - AICTE certified in Andriod Developer
 - BEC certification from Cambridge Univeristy
 - C++ Course completion certificate
-
